FRATERNITAS

— CATHOLICA —

FRATERNITAS CATHOLICA

- A space where Catholic leaders can **think, discern, and act together** in service of the common good. There, they recognize one another as agents of change.
- **Fraternitas Catholica** is a **fraternity of Catholic lay leaders** who hold significant responsibilities in the world — business, finance, institutions, entrepreneurship, and investment— and who seek to **integrate faith, leadership, and moral integrity** into their professional vocation.
- **Purpose**
 - To form and connect Catholic leaders who face **complex decisions and high-pressure environments**, offering them a space of **trust, reflection, and formation** to exercise their leadership with prudence, responsibility, and fidelity to the Gospel.
- It does not form spectators. It forms agents of change: those who first order their inner life, and from there, transform whatever they touch.
- **What it offers**
 - **Confidential Fraternal Circles** of peer leaders
 - **Intellectual and spiritual formation** for leaders in the world
 - **An international network of Catholic leaders**
 - **Applied ethical reflection** on real leadership decisions
- **Who it's for**
 - Entrepreneurs, executives, investors, capital managers, institutional leaders, and professionals with **real decision-making responsibility and impact**.
- **Spirit:** Faith · Prudence · Responsibility

SINTONÍA
CATÓLICA

SINTONÍA CATÓLICA

- **Faith. Community. Sport.**

- Sintonía Católica is a Catholic group that competes as an amateur team in marathons, Ironmans, triathlons, soccer and tennis tournaments, and other sporting events.
- What we seek is to be a platform where Catholics can meet, share, and compete athletically in a context of social and family fellowship. Where the discipline of the body becomes visible testimony of an ordered life: an agent of change is not always recognized by what they say, but by the coherence with which they live.

- **Our mission**

- Foster friendships and community among people united in faith
- Promote a culture of discipline, excellence, and Christian witness
- Create synergies that go beyond sport: friendship, family, projects, and apostolates.

- **Vision**

Compete with intensity, live with coherence, and build community in tune with the Catholic faith.

HÁGASE TU VOLUNTAD

HÁGASE TU VOLUNTAD

- **Catholic Guidance in Turbulent Times**

- A space for formation and reflection that seeks to **reorient personal, professional, and financial life toward the Will of God**, integrating faith, reason, and concrete action.

- **Format:** Podcast and Interviews

- **Purpose:** That every decision —personal, professional, and financial— be a concrete answer to a single question:
Am I doing His Will?
- Whoever answers it honestly becomes, without needing to proclaim it, a true agent of change: in their person, their business, and their wealth.

From a Catholic perspective, we address three fundamental pillars:

- **The Person:** Character formation, inner leadership, virtue, decision-making, purpose, and holiness in everyday life.
- **The Entrepreneur / Professional:** Business ethics, Christian leadership, social responsibility, organizational culture grounded in Catholic principles.
- **The Investor:** Christian stewardship, responsible investing, wealth creation with purpose, administration aligned with the common good.

LUMEN TERRAE

LUMEN TERRAE

A Catholic Apostolate for Integral Ecology

An apostolate that helps individuals and communities discover that caring for creation is part of Christian life, integrating spirituality, formation, community life, and concrete action in the light of the Church's magisterium.

Purpose: To form true agents of change for the care of our common home: people who first contemplate and convert, and only then act.

Spirituality: Contemplate → Convert → Care → Serve → Evangelize.

It does not seek to promote "green" practices, but to form disciples who recognize creation as a gift from God and translate that conversion into care for our common home and for the most vulnerable.

What it offers

- **Core:** ecological conversion retreats and the spirituality of creation — silence, prayer, and contemplation that lead to concrete commitments.
- **Extensions:** formation in integral ecology, Laudato Si' Communities, habits of conversion, socio-environmental missions, youth, and accompaniment for parishes.

Who it's for: Parishes, schools, lay movements, families, and religious communities seeking to incorporate integral ecology into their everyday and pastoral life.
